

Contact Lens Care Program

Do you wear contacts? Are you interested in seeing if contacts are right for you? This program covers the initial contact lens exam (fitting and evaluation) and initial supply of contacts from the list below. Some members may have additional charges for instruction, training, problem solving, or follow-up services based on your VSP doctor's professional determination.

If your contact lens allowance is less than the cost of your contacts, you can simply pay the difference. If your allowance is more than the cost of your contacts, you can use your remaining balance to buy additional contacts on the same day that you receive your contact lens services.

If you choose a lens that is not part of this program, you can use your contact lens allowance for contacts and contact lens professional services.

Plus, you'll get 15% off all of your contact lens services from a VSP doctor. Log on to vsp.com to review your personal benefit information.

Contact Lenses

Product	Manufacturer	Initial Supply Boxes/Vials	Replacement Wearers	New/Refit Wearers
1-Day ACUVUE	Vistakon	4	\$150	\$190
